TRUSTEES

BLOOMFIELD HILLS BOARD OF EDUCATION

"I'm a national award-winning, design/construction engineer. I've analyzed the controversial new high schools' bond proposal. I find the proposed project to be seriously flawed in the way it has been designed, priced and promoted to the public. Our highly-educated and business-savvy residents cannot be fooled - particularly during a very trying economy affecting all of us!"

"The trustees on the Bloomfield Hills Board of Education are totally out of control. They want the taxpayers to approve \$121 million in NEW TAXES to build two BRAND-NEW schools from the ground up! They think we have money to burn! I have worked in classrooms in Bloomfield Hills' Schools. Educational performance counts. Not colossal buildings!"
